

GRANVILLE TOWNSHIP LAND MANAGEMENT COMMITTEE
Meeting Minutes– Wednesday July 16, 2014

ATTENDING: Grace Gordon, Greg Dixon, Lynn & Craig Connelly, Mickie Smith, Andy McCall, Judy Preston

GUESTS: Don Hostetter

MEETING MINUTES: May 14, 2014 minutes were recorded by Greg Dixon approved by email and forwarded to trustees and Land Trust representatives by Judy Preston.

PARKS AND TRAILS:

Ash Borer – Don Hostetter told us about the life cycle and effects. There are treatments but they are expensive. When the trees die they become brittle and limbs fall easily. With help from AEP the village is removing Ash trees that are in locations where they pose a threat to people. Lisa Bowers is the central Ohio Urban Forester. Don gave us her contact info. Grace will contact her and see if she can help us identify Ash trees at SV. Once we do that we can determine if there are any that should be removed before they do damage.

Mural – Melanie let us know before the meeting that they have found a location for the mural therefore we do not have to consider where if anywhere to place it at SV.

Memorial Tree & Bench – no further contact

Improvements – work session 5/27, viewing circle was discussed, Lynn will try and get a detailed estimate. Work would not happen until fall

Trash @ SV – Grace has spoken with the GRD and they are taking steps. We felt that fewer trash cans and having those in a container would help. Some of the problem could be animals knocking over cans.

DEVELOPMENT RIGHTS:

Wolfe property status – closed

NEXT MEETING: no date was set at this time.
